

To whom it may concern:

I live in the Oklahoma City area served by KLOVE radio station that is broadcast over a FM translator. I t has come to my attention that a LPFM could be given the opportunity to broadcast in this area, in fact over the KLOVE frequency. I believe that this would be a travesty to our community. KLOVE is listened to by over 100,000 people in the OKC market. It is a family friendly station that also sends forth the Gospel of Jesus. I am a monetary supporter of KLOVE and feel that the service it provides spreads the GOOD NEWS to many people who are unchurched or to those that are in need of something uplifting. Please preserve this station and its frequencies. Thank you.... John Graves
